

PROFILE

J-1 Visa available during Spring 2025 internship

Industrial Design student from Germany, currently studying at the University of Cincinnati, Ohio.

My passion lies in pushing boundaries, with a focus on sustainability, technological innovation and an emphasis on UX.

EDUCATION

Bergische Universität Wuppertal | 2021 - 2026
Specializing in technical proficiency, manufacturing processes, circular economy

University of Cincinnati | 2024 - 2024
Currently completing a semester abroad, focusing on the international exchange of ideas and skills.

AWARDS

Scholarship by German Academic Exchange Service | 2024

Scholarship to support an exchange semester at the University of Cincinnati, USA.

Scholarship by German Academic Scholarship Foundation | 2024

Scholarship Program of the German Academic Scholarship Foundation (Studienstiftung des Deutschen Volkes)

KEY SKILLS

Digital Skills

Keyshot, SolidWorks, Rhinoceros, Photoshop, Illustrator, InDesign, Premiere Pro, iMovie, Affinity Photo/Designer/Publisher, Figma, Noodle, Keynote, Powerpoint, Miro, Procreate, Microsoft Office, Logic

Analog Skills

iterative prototyping, model making, sketching, rendering, 3D printing, woodworking, welding, clay sculpting, mold making

Strategic

design research, market & competitor analysis, trend analysis, story telling, verbal & visual presentation, design thinking, sustainable thinking, human centered design, technical & production feasibility,

Languages

German - native language
English - written and verbal
Polish - verbal

Interests

Creative: music playing & production, guitar, bass, keyboard, drums, painting, illustrating, poster /graphic design, sculpting, rug making, screenprinting, animation, marketing

Health: fitness, basketball, sailing, skiing, tennis, mental health & meditation

EXPERIENCE

Industrial Design Co-op
Luas Nülle GmbH | April 2024 - July 2024

Design of a mobile learning system for vocational schools and training centers that significantly reduces space usage, enhances classroom efficiency, alleviates the burden on teaching staff and students through an intelligent storage system for educational materials, and improves the overall learning environment with strategically placed design elements.

Close collaboration with clients, maintaining continuous communication on topics such as manufacturability, innovation development, and design-specific issues.

Industrial Design Co-op
Z.E.I.T. | October 2023 - March 2024

Designed an ambient interface to combat loneliness and facilitate connections between people, particularly seniors, over long distances. The future design concept involved exploring current and near-future social challenges to address the issue of senior isolation through intelligent technology and user-friendly design for the elderly.

Engaged in strong collaboration with the team through weekly meetings, conducting active feedback sessions to achieve the best possible outcomes.

Media coverage of the project due to its relevance and urgency of addressing the issue.

Student Assistant
Z.E.I.T. Project | June 2023 - June 2024

Project aimed at connecting seniors with family and friends over long distances using smart technologies such as virtual reality, smart textiles, and sensors, creating an immersive experience.

Responsibilities included UI design, conducting user tests and interviews, analyzing scientific research and interviews, editing promotional video material, and CAD modeling of components for required hardware, illustrating explanatory menus and graphical elements, among other tasks.

Graphic Designer
Freelancer | February 2022 - Current

Supporting the development of marketing campaigns and creation of marketing materials using digital graphic design tools such as Adobe Photoshop, InDesign, and the Affinity suite. Prepared print-ready files for the production of marketing materials.

Close collaboration and communication with clients to realize their overall brand identity and vision.

Advanced Market Research
AMR GmbH | April 2018 - March 2019

Independent market research, conducting interviews, distilling industry-specific knowledge, and presenting consolidated insights to clients for their strategic use.
